

International Conference A' Mhamed SAFI Al-Mosteghanemy
Path and Achievements

In order to return favours to people and to honor national figures who served public affairs, the Laboratory of Linguistic and Literary Studies in Algeria at the Faculty of Arabic Literature and Arts / Abdelhamid Ben Badis University in Mosteghanem, in cooperation with the Supreme Council of the Arabic Language and Arts and the Academy of the Arabic Language in Sharjah, is pleased to announce an International Conference in December the 5th and the 6th 2021 on the personality of an outstanding figure who provided services that achieved a global dimension. An authentic character added to the people of Mostaghanem who honored their country Algeria in terms of reform, novel, Arabic language, rethoric and interpretation of Quran.

"Mohammed Safi Al-Mosteghanemy" is regarded one of the emigrant scholar figures who served his country with a major national project that is the Historical Dictionary of the Arabic Language in which he had the merit of launching and whose outcomes became evident through the eight (08) volumes that appeared in the International Day of the Arabic Language in December the 18th 2020.

Muhammed Safi Al-Mostaghanemy, the researcher under consideration is worth looking into for his ideas in rhetoric, language, and interpretation... a set of scientific implications that provide an added value to scientific research in the Arabic language.

Researchers, in this respect, are invited to contribute to this symposium with one of the topic areas that may constitute the scientific and theoretical premises of the debate.

2-Problematic Research : This International Conference attempts to attract such immigrant competencies to present the distinguished features they have demonstrated to project them on the current situation to achieve good governance. So, to what extent can we benefit from the keys to the advancement which led them to success externally? And applying them internally, and can these competencies be attracted locally? And what are the modern ways that can help to serve linguistic citizenship and improve the cultural and linguistic reality? And how to connect these brains to serve the public affairs in their home country? And what are the services expected of them?

These are a set of the ideas that are presented to researchers
