STUDY DAY

Under the high patronage of the Rector of Mostaganem University, Professor BOUDERAH BRAHIM,
the department of English organizes a study day on

AI IN EDUCATION: CHALLENGES AND PERSPECTIVES
October 16h, 2023

RATIONALE

The rapid advancement of technology is making us explore new ways of learning. The introduction of technology in the educational field has long been unleashed, making teaching and learning less pondorous and more effective. The use of computers, smart whiteboards and projectors have made the teaching profession easier, interactive and enjoyable. Yet,the simple use of the computers, tablets and smartphones have quickly developed into other sophisticated means and tools. Indeed, cognitive science has given birth to an intelligenece similar to the human one, but it does not require effort ; it is Artificial Intelligence(AI).

AI is the development of coputerized systems that can perform tasks that normally requires human intelligence, such as thinking, reasoning, perception, and decision-making. AI software can analyse large amounts of data, recognize patters, and make predictions. AI technology has numerous applications, ranging from facial recognition to self-driving cars, language translation, virtual personal assistants, and even medical diagnosis.

The study day will allow participants to investigate the ethical implications, practical uses, and prospective impact of AI on the teaching and learning process. Furthermore, the event will foster cross-disciplinary debate and collaboration among educators, and experts in the field of AI and education, as well as the sharing of best practices and ideas for incorporating AI into teaching and learning. The study day will provide attendees with an opportunity to enhance their understanding of AI and its potential in education in an interactive and engaging learning environment, preparing them to successfully respond to the problems and opportunities that AI brings.
OBJECTIVES

✓ Raising awareness among educators and learners about the possible benefits and drawbacks of using AI in the classroom.

✓ Looking into the ethical aspects of employing AI in education, such as privacy, plagiarism, bias, and transparency.

✓ Looking into the potential impact of artificial intelligence on the roles of instructors and students in the classroom.

✓ Identifying best practices and techniques for incorporating artificial intelligence into teaching and learning that promote student achievement.

✓ Creating a space for cross-disciplinary debate and collaboration among educators and AI and education professionals.

We invite researchers, teachers, and students to engage in multidisciplinary discussions on the topic by submitting their abstracts of no more than 150 words (word format) that fall into the tracks listed below.

TRACKS

- The integration of AI tools in education

- Ethical issues in using AI tools

- The potential impact of AI on teaching and learning

- Customized learning and AI

- Collaborative learning and AI

- Gamification and AI in education

- Human intelligence VS artificial intelligence

- Emotional intelligence and AI in education

- AI and assessment

- language processing and chatbots

- AI discourse

SCIENTIFIC COMMITTEE

Prof. Melouka Ziani

Prof. Hayat Aoumeur

Prof. Dallal Sarnou

Dr. Zineb Djoub

Dr. Lila Benstaali

PRESIDENT OF THE STUDY DAY

Prof. Melouka Ziani

ORGANIZING COMMITTEE

Prof. Melouka Ziani

Prof. Hayat Aoumeur

Prof. Dallal Sarnou

Dr. Lila Benstaali

Dr. Sabrina Ould Si Bouziane

Ms. Latifa Kaid Omar

Mr. Cherif Teguia

Ms. Rajaa Adnani

Ms. Soumia Bentamra

Send your abstracts to:

melouka.ziani@univ-mosta.dz

hayat.aoumeur@univ-mosta.dz

IMPORTANT DATES

Abstract submission: September 30, 2023

Notification of acceptance: October 10, 2023

Study day: October 16, 2023
