

Preamble and Forum problematic

Within the framework of the data revolution, the Internet of Things, artificial intelligence technologies and after more than half of the world's population became active users of the Internet, New data declared from the International Telecommunication Union, by the United Nations specialized agency for communications technology that a Global growth in Internet use ", with the estimated number of people using the Internet rising to 4.9 billion in 2021, from 4.1 billion in 2019. This has a wide positive effect that no one can deny, but it has been accompanied by a sense of the dangers of modern technologies to privacy Digital activity has become detrimental to freedoms and the right to privacy as opposed to states' desire to control the digital space and threats from certain individuals or gangs.

Main axes of the National Meeting:

The main themes of the National Forum:

In the light of the foregoing, and for opening a constructive debate on the Forum's issue, its proposed interlocutors are as follows:

Theme 1: *Conceptual Framework for Digital Security and the Right to Digital Privacy in Electronic Transactions*

Theme 2 : *Forms of violations of digital privacy in the context of electronic dealing*

Theme 3: *Patterns of national legislative intervention to promote and protect the right to privacy in electronic transactions*

Theme 4: *Digital forensics and the right to digital privacy in the electronic transactions environment*

Theme 5: *International rules protecting the right to digital privacy*

Theme 6: *Innovative digital solutions for technological start-ups in the field of information security and digital privacy*

Because electronic transactions are part of this digital space, the issue of the right to digital privacy and information security had to be taken more seriously and Search for new ways and methods to combat cybercrime and its spread.

Hence the problems of this scientific forum in researching the forms of cyber violations of the right to digital privacy in the electronic dealings environment? How appropriate legal systems are existing to provide protection for this right in line with the nature of emerging threats in the digital age? What digital solutions have been provided by technology start-ups in the field of cybersecurity promotion and privacy protection?

Participation form:

The participation form contains the following information:

Name and surname:.....

Degree:.....

University Institution:.....

Telephone numb.....

Intervention title:.....

The focus of the intervention:.....

Summary of intervention:.....

Conditions and dates of participation:

1. It should be one of the main themes of the meeting, and it should be serious and scientific;
2. Using the SAKKAL LAJALA ARABIC LANGUAGE LINE 14 with a marginalisation with the same 12-size font. Ada was searching in a foreign language (French, English), editing the entry in TIMES NEW ROMAN LINE 12, leaving a distance of 2.5 cm in the four sides of the page, no more than 20 pages and no less than 10 pages.
3. There cannot be more than two participants in one intervention.

Last time to send the brief intervention :

2023/06/10

. I delay answering acceptable interventions

2023/06/11/

. Last time to send the whole intervention.

2023/06/26

Summaries and interventions are sent through the following e-mail
