Message of the Minister

Algiers, April 2nd, 2020

To my fellow colleagues, teachers and researchers,

To our dear students,

In these hard times that our nation is facing, characterized by a considerable and drastic drop in oil revenues, which is closely related and caused by widespread of the deadly pandemic of the coronavirus. I call all my fellow colleagues, teachers and researchers to mobilize themselves and put all their intellectual and physical efforts and geniuses to serve research, in order to fight against this scourge.

Our top priority is to manufacture cleaning products (gels), masks, and also respiration-enhancing devices, allowing patients to be taken care of. This will be the contribution of our sector in accompanying the hospital to provide the needed aid for those who have been infected by Covid-19.

Last but not least, I kindly invite you to contribute to the feeding of the online platforms (distant learning) which are available in the Algerian academic institutions. This will help our students get prepared for their exam.

Let's meet the expectations of our fellow Algerian citizens!

God bless Algeria

The Minister

Prof. Chems-Eddine CHITOUR
