Communications et Pratiques Pédagogiques (CNTICPP)

organizes

Workshop

Under the theme :

**AI for Academic Research
From Ideation to Scientific Publication**

Presented by

Pr. Meriem BELQUIDOU

Since October 2008, she has been a teacher-researcher in communication (ICT) at Abdelhamri Mehri University - Constantine 2, with a solid academic background. She holds an engineering degree from the University of Constantine, a professional master's degree in safe software development from Sorbonne University – École Normale Supérieure de Cachan (France), a research master's degree in industrial systems engineering from the University of Versailles Saint-Quentin-en-Yvelines (France), as well as a doctorate in computer science, obtained with distinction in February 2008 under joint supervision between IMT-Atlantique and the University of Rennes 1. Her research focuses on software engineering, the Internet of Things (IoT), cloud computing, component and service deployment, architecture description languages, formal specification and verification, as well as artificial intelligence.
